Lab Hours: 8:00 AM-7 PM

Digital Composite-Assignment Due: Thursday-Oct 18th

Illustrator File with Placed Images.

Using a drawing of your own making,
and a photoshop image of your choice,
create a digital image incorporating the clipping mask technique
for your photo (you may use a layered photoshop file using what you have already learned in the previous exercise if you like),
envelope distort technique for type manipulation, trace image filter
for your drawing,
and background pattern technique. For the final touches.

A demo will be provided in Thursday's class.
